History

I can confirm this behaviour on 3.3.1.stable, 3.4.3.stable and 3.4.4.stable

The number of blank lines after each note seems to be identical to the number of lines of text in the note.

#2 - 2018-04-30 02:40 - Go MAEDA

- Status changed from New to Confirmed
- Target version set to Candidate for next minor release

Reproducible in the current trunk (r17315).
