

## CHILDREN'S IMAGING – OUTPATIENT

### SCREEN and TEST

#### Outpatient

#### Non-general anesthesia imaging

- ☐ Phone calls are made to patients the day before their scheduled infusion/exam asking about recent travel, GI, fever, cough, or COVID-19 symptoms
- ☐ Only 1 visitor is allowed with patient and both will be screened again upon entry into the hospital
- ☐ If patient has a fever or any type of cold/flu like symptoms or is COVID-19 (+) while screening over phone, patient is rescheduled and their MD is notified
- ☐ Non GA Procedures requiring COVID-19 Testing
  - ☐ VCUG
  - ☐ UGI
  - ☐ All MEG studies
- ☐ A negative COVID-19 result must be obtained prior to patient coming into imaging suite for infusion/exam.
- ☐ Must have test within 72 hours
- ☐ Outside RT-PCR COVID-19 tests accepted

### DISPOSITION

- ☐ Day of Infusion/Exam
  - ☐ Both patient and family member are screened upon entry into hospital along with a mask
  - ☐ Second temperature is taken upon approaching the front desk in the imaging suite.
  - ☐ Seat Unavailable (Social Distancing) signs have been placed in waiting room chairs allowing for a maximum of 15 people to sit safely at one given time.
  - ☐ Patient and family member are brought back to their infusion/exam room by nurse/tech also wearing a mask
  - ☐ At end of infusion/exam, patient and family member are discharged home while wearing a mask

### TRANSPORT and RESOURCES

#### TRANSPORT

- ☐ A mask/gloves are required for patient and nursing staff while transporting down to the Imaging Suite.
- ☐ For COVID-19 (+)/PUI, Droplet+ sign placed on outside of procedure door
- ☐ After procedure, patient wears surgical mask. Nursing staff plus anesthesia team wears N95 mask and gloves to transport back up to Pedi PACU.

#### RESOURCES

- ☐ Nursing staff for questions/concerns
- ☐ PPE will be outside room

PPE = personal protective equipment,  
PUI = patient under investigation
