Business Improvement District in Planning

On July 17th a public meeting was held to discuss the possibility of creating a Business Improvement District (BID) for Downtown Surfside. Redevelopment Management Associates (RMA) presented information on how BIDs work and described possible BID programs for Downtown Surfside. Similar to a Homeowners Association, but for commercial properties, a BID formalizes a process for property and business owners to work together to improve a commercial district.

Property and business owners will finalize plans for a BID and bring the project for approval by the Town Commission. For more information, contact Duncan Tavares - Tourism, Economic Development & Community Services Director - at 305-864-0722.

Isaac Bashevis Singer Street Sign Unveiled

(L-R) Special Projects Director Randy Stokes, Commissioner Marta Olchyk and Town Manager Mike Crotty join residents at the unveiling.

Isaac Bashevis Singer, a 1978 winner of the Nobel Prize for literature and a leading figure in Yiddish literature, was a resident of the Town in the 1980s. Now the Surfside street named in his honor has new, more prominent signage. A brief ceremony attended by residents and Town officials marked the unveiling of the signs on 95th Street. In addition to the Nobel prize, Singer also won two National Book Awards for his novels and short story collections. He died on July 24, 1991.

Parking Lot Renovations Planned

The Town Commission has approved renovations and new landscaping for two major parking lots in the downtown Surfside district. The first is the Abbott lot between 95th and 96th Streets (west of Harding Avenue behind the CVS and Flanigan's). The other is the 94th Street lot (on the southeast corner of 94th and Harding Avenue). Contractors Lynx Construction and Luke's Landscaping will be working with Public Works to complete the renovation. The project is scheduled to begin before the end of August.

Streetscape Improvement Takes Next Step

The plans for the Harding Avenue Streetscape are now being reviewed by the Florida Department of Transportation, since Harding Avenue is a state-owned street. The Town is planning to start the project as soon as it is approved by the Florida DOT.

Designed by the firms of Stantac and Rosenberg Gradner, the Harding Avenue Streetscape plan will transform the downtown area with Medjool palms, colorful tropical shrubs and pocket parks with benches, pavers and street crossings.
